

The airwaves are owned by the people of the United States. We allow media companies to use these airwaves with the understanding that they serve our best interests with complete, accurate, fair, and balanced transmission of information. It is the duty of the FCC to make sure they do so.

Relaxing the rules of broadcast ownership will be a detriment to the reporting of news as I have described it above. I urge the FCC to delay any changes in these rules until ALL the people of this nation have had the opportunity to express their opinion on the matter and our ELECTED officials have had the chance to debate the issue.
